

# CH-810 - Heating resistor (upgraded release)

**Spare Part Number:** CH-810

**Net Weight:** 0.00kg

**Net Dimensions:** 0.00cm x 0.00cm x 0.00cm

## Description

### CH-810 Heating Resistor (upgraded release)

Quartz heating is a type of radiant heating, commonly referred to as short-wave infrared heating. The tubes are manufactured from quartz glass (fused silica), which protect and support the heating coils. They provide efficient transmission of infra-red radiation, good resistance to chemical and contamination.

Heating coils are wound in various grades of iron-chrome-aluminium alloys to match the applications and operating conditions, and typically generate radiant emission in the short to medium wavelength range.

quartz 3000w

Made in Italy for 810

CH-025 B

## Equipment Ref

810 Ref **R1** - heating
