

CG-004 - Compressed air sensor/switch

Spare Part Number: CG-004

Net Weight: 0.00kg

Net Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

CG-004 Compressed air sensor/switch

Mechanical pressure switch used for monitoring the pressure of a process fluid. This pressure switch uses a membrane that moves according to the amount of pressure exerted by the system. The components are connected to one or more contacts within the switch which are activated upon reaching a certain threshold or setpoint. With enough force, a contact closes or opens the switch depending on its configuration.

Pressure switch PM11-NA
