

AG-003 - Connecting Link

Spare Part Number: AG-003

Net Weight: 0.00kg

Net Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

AG-003 Double Chain Connecting Link

The Connecting Link is a single removable link segment of a chain. Often people also refer to it as a quick link. It looks like a normal segment of chain link, except that one side has a flat washer that mimics the normal side piece of the link and next to that, to a removable link-shaped clip that slides on and off, usually with the help of a screwdriver, when mounting or removing the master link. The Connecting Link is not permanently fused like all the other links, which allows us to remove the chain at will, taking it off and putting it back on when needed.

Connecting Chain Link - Double chain coupling 1/2" x 5/16"
