

## CH-025 - Heating resistor

**Product Code:** CH-025

**Weight:** 0.00kg

**Dimensions:** 1,046.00mm x 8.00mm x  
12.00mm

### Description

## CH-025 Heating resistor quartz

Quartz heating is a type of radiant heating, commonly referred to as short-wave infrared heating. The tubes are manufactured from quartz glass (fused silica), which protect and support the heating coils. They provide efficient transmission of infra-red radiation, good resistance to chemical and contamination.

Heating coils are wound in various grades of iron-chrome-aluminium alloys to match the applications and operating conditions, and typically generate radiant emission in the short to medium wavelength range.

300W - 8x12x???mm 230V

### Equipment Reference

810 for Hot Roll (Made in Italy)

### Specification

Spare Part Type	
Electrical Component	

Spare Part Group	
Heater	
Stock Type	
Standard Stock
