

CC-075 - Circuit breaker

Product Code: CC-075

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

CC-075 Circuit breaker

A circuit breaker is an automatically operated electrical switch designed to protect an electrical circuit from damage caused by excess current from an overload or short circuit. Its basic function is to interrupt current flow after a fault is detected. Unlike a fuse, which operates once and then must be replaced, a circuit breaker can be manually reset to resume normal operation.
