# CH-023 - Pre-Heating resistor

**Product Code: CH-023** 

Weight: 0.00kg

**Dimensions:** 0.00cm x 0.00cm x 0.00cm

#### **Description**

# **CH-023 Pre-Heating Resistor**

Quartz heating is a type of radiant heating, commonly referred to as short-wave infrared heating. The tubes are manufactured from quartz glass (fused silica), which protect and support the heating coils. They provide efficient transmission of infra-red radiation, good resistance to chemical and contamination.

Heating coils are wound in various grades of iron-chrome-aluminium alloys to match the applications and operating conditions, and typically generate radiant emission in the short to medium wavelength range.

### **Equipment Reference**

810 for pre-heating

## **Specification**

Spare Part Type	
Electrical Component	
Spare Part Group	
Heater
